

DRAFTER

Spika Welding and Manufacturing in Lewistown, Montana is looking for individuals **proficient and experienced in CAD solid modeling**, specifically using SolidWorks software, for creating production data packages. Will be working with a 4-5 person design team in a 13-year-old growing company with \$5M annual sales. Wage DOE and full benefits package.

Responsibilities Include:

- Participate in design reviews for new designs and component changes
- Ensure drawings are complete and accurate
- Create accurate BOMs of each job in time for procurement to acquire parts and materials
- Create travelers and other production data
- Work with Project Manager to ensure production data packages are complete and accurate
- Update models and drawings to reflect Engineering Change Orders and post-release design modifications
- Create and archive as-built project files
- Assist with product manual creation

Qualifications and Skills Required:

- AS in Drafting/Solid Modeling or 5+ years on-the-job experience
- SolidWorks experience preferred
- Strong written and verbal communication skills
- Planning and organization skills combined with the ability to work under pressure
- Team player with a positive attitude
