

Architectural Drafter

Habitec is a full service, multi-disciplined architectural, planning and interior design firm that has been doing exciting work in the Silicon Valley and beyond for over 40 years. We are recognized as a leading architectural firm with expertise in all facets of commercial architecture. Our clients include Tesla Motors, Santana Row (FRIT), San Jose State University, Satellite Dialysis, and various other clients from the medical, office, retail, and educational fields.

Candidate must have:

- Bachelor degree in Architecture.
- 1-5 years of experience in Architectural drafting for all types of commercial projects.
- *Candidates with experience in manufacturing and industrial facilities are very much preferred.*
- Excellent oral and written communication skills.
- Strong technical/production skills with the ability to identify, develop and incorporate design intent into a quality set of construction documents.
- Individuals will be responsible for performing architectural assignments with minimal supervision.
- Proficiency in AutoCAD and familiarity with other industry software applications.
- Working vehicle and driver's license; willing to commute to clients and job sites.

Duties:

- Assists Job Captain with completion of high quality drawings and presentation materials from schematic design through construction administration.

Characteristics:

- Team player and people person.
- Dedicated to the pursuit of knowledge and personal/professional growth.
- Self-starting highly motivated, hardworking, responsive to project needs.
- Organized, detail-oriented and thorough, with strong communication and time management skills.

If you meet the criteria above, please submit your resume with cover letter for immediate consideration to Ibolinger@habitec.com. Be sure to specify "Architectural Designer" in email subject line. Please do not call about this position.
